Your Publisher files, back in your hands.

Open, edit and export Microsoft Publisher (.pub) files on Windows. Free, open source, and no Publisher needed.

WHAT WORKS IN THE ALPHA

- Opens Publisher 2002 and newer files as an editable copy
- Shapes, curves, hearts and arched WordArt
- Text, colours, bullets and pictures
- Save as .designcraft, export to PDF, print

Still partly: fonts, tables, other shapes. Numbered lists and tab stops: not yet.

Download the free alpha: github.com/srt8hellcat2-ui/niftydesign

Unofficial alpha, unsigned download, tested on one Windows PC. Based on DesignCraft by the ArtCraft team. Not affiliated with or supported by ArtCraft or Microsoft.
